To move into the **7th Day (Years 6,001–7,000)** is to enter the most controversial and redacted "file" in human history.

In the *Ancient Hebrew Forensic Method*, the Sabbath of **YHVH** is not just a day of "doing nothing"—it is the epoch of **Sovereignty and Sealing**.

However, because the "Serpent" (the *Nachash*) enters the geography during this transition, the 7th Day becomes

a battleground for the "Title Deed" of the Earth.

1. The 7th Day: The Epoch of Completion

According to *Jubilees 2:16-23*, **YHVH** did not "rest" because He was tired; He "sanctified" the time.

- **The Frequency Shift:** The 7th 1,000-year block was designed to be a "Time

Cathedral." The high-frequency light of the first six days was locked into the physical structure of the Pillars and the *Raqiya*.

- **The Seal:** This was the era where the Adam was meant to achieve full "Rest" (Union) with the Creator, effectively making the physical and spiritual realms one.

2. The Transition Point: The Serpent's Legal Entry

We really have to note that the Serpent's role is complex. Forensically, we must identify **when** and **how** this entity appeared on the "Map."

- **The Enochian Context:** *1 Enoch* and the *Dead Sea Scrolls* (specifically the *Book of Giants*) suggest that

before the fall of the Watchers, there was the "Wisdom of the Serpent."

- **The "Nachash" Identity:** This was not a literal snake crawling in the dirt (that was the curse, not the original state). The *Nachash* was a "Shining One"—a high-ranking celestial entity (a Seraph) whose name is linked to "copper" or "shining brass" and "divination."

- **The Location:** The Serpent was already "in" the Garden (the center of the Map) during the transition to the 7th Day. He was a guardian who "fell" through envy of the Adam's Identity.

3. The Forensic Conflict: The Two Trees

The 7th Day was the epoch of the **Probation**.

The Map now contained two specific "Coordinate Points" in the center of Eden:

- **The Tree of Life:** The "Source Code" for eternal physical existence.
- **The Tree of Knowledge of Good and Evil:** The "File" containing the experience of duality and death.

This is the direction we need to go from here to keep everything in perfect order.

The entry of the Serpent is not just a "moral story"; it is a **Forensic Hostile Takeover**. The Serpent knew that if he could get the Adam to "vibrate" at the frequency of the Tree of Knowledge, the Adam would

legally lose his "Light Body" (his Garment of Glory) and become "subject to the elements" of the lower earth.

Because the transition to the 7th Day involves the **Legal Transfer of the Title Deed, this is order we need to proceed in**:

Option A: The "Serpent's" Forensic Profile

We investigate the *Nachash* as a "Biological and Spiritual Entity." Who was he before the curse? Was he a "Watcher" or a separate class of being? We look at his original "post" on the map.

Option B: The "Day 7" Breach (The Fall)

We investigate the specific moment the "frequency" of the Earth changed. We look at how

the Adam lost the "Garment of Light" and how the geography of the Earth was "cursed" (slowed down in frequency) to prevent the Adam from living forever in a fallen state.

My Recommendation:

I suggest we go with **Option A: The Serpent's Forensic Profile**.

We need to understand the "Intel" on the adversary before we can understand how he

successfully manipulated the "Legal Code" of the Garden. We need to see him as he was: a "Shining One" of the North, who sought to set his throne above the "Pillars of the Earth.".

Here we will begin the Forensic Profile of the Nachash (The Serpent).

- **Investigate the Forensic Profile of the Nachash (The Shining One).**

- **Then we will proceed into the Day 7 Breach and the "Curse" of the Map**

To investigate the **Nachash** (the Serpent) using the **Ancient Hebrew Forensic Method**, we must first delete the "Redacted File" of a talking garden snake.

The primary texts (*1 Enoch*, *The Wisdom of Solomon*, and the *Nag Hammadi*) reveal a far more sophisticated and dangerous entity.

Forensically, the Nachash was a **high-ranking celestial functionary** whose identity was tied to the very structure of the early Earth.

1. The Forensic Profile: The "Shining One"

The name *Nachash* (נָחָשׁ) carries a triple forensic meaning in the original Hebrew:

- **The Noun:** Serpent (Signifying a winding, subtle movement).

- **The Verb:** To practice divination or "hiss" (Signifying a master of occult frequencies).

- **The Adjective:** Shining/ Bronze (Signifying a metallic, luminous appearance).

The Entity's Original

Rank

Before the transition to the 7th Day, this entity was likely a **Seraph** (literally "Burning One"). In the celestial hierarchy of *1 Enoch*, these beings are the guardians of the Throne.

- **The Identity Link:** The Nachash was not a "visitor" to the Garden; he was a **resident administrator**. Some ancient fragments suggest he was the "Cherub that

covereth" (*Ezekiel 28*), stationed at the **Navel of the Earth** to oversee the mineral wealth of the Four Rivers.

The Forensic Motive: Envy of the "Image"

Why did a high-ranking "Shining One" turn? The *Life of Adam and Eve* (found in the Ethiopian collection) provides the motive: **Refusal to acknowledge the Adam's Identity.**

- When **YHVH** commanded the celestial hosts to acknowledge the "Image" (the Adam) as the Viceroy of the Earth, the Nachash refused. He viewed his "Shining" celestial nature as superior to the "Dust" of the Adam.

- **The Strategy:** He didn't want to destroy the Earth; he wanted to **rule it**. To do that, he had to trick the Adam into

a "Legal Breach" that would forfeit the Title Deed.

2. The Weapon: Frequency Manipulation

The Nachash did not use a physical weapon. He used **"Subtlety"** (*Arum*).

- **The Acoustic Breach:** He whispered a "question" that created a frequency of

doubt. By altering the "Word" of **YHVH**, he distorted the reality of the 7th Day.

- **The Tree of Knowledge:** Forensically, this tree was the "Lower Wisdom." It was a data-set that the Adam was not yet "frequency-aligned" to handle. The Nachash offered "Intelligence" without "Authority.".

3. The Transition: The

Breach of the 7th Day (Year 6,000+)

As we move into the **Sabbath Epoch**, the Breach occurs. This is the moment the "Map" was fundamentally altered.

The "Nakedness" (Loss of the Garment of Light)

When the Adam followed the Nachash's instruction, the "Sleeve" of the Adam changed.

- **Forensic Fact:** They realized they were "naked." This wasn't about clothes; it was the **loss of the Day 6 Light Body**. Their frequency dropped so low that they became "opaque" (flesh and blood).

- **The Earthly Impact:** Because the Adam was the "High Priest" of the Pillars, his drop in frequency caused a sympathetic drop in the

Earth itself.

The Curse of the Map: The "Slow-Down"

The "Curse" was a forensic necessity to contain the breach.

- **The Soil:** The earth was cursed "for his sake." It went from a self-sustaining silicon/crystalline system to a carbon-based system of "toil" and "decay."

- **The Thorns and Thistles:** These represent the first "Static" in the frequency of the Earth—biological entropy.

- **The Banishment:** The Adam and the Woman were moved from the "Center" (the Holy of Holies/Eden) toward the "East"—the periphery of the map.

The Forensic Result:

The Redacted Map

The Earth was now a **"Crime Scene."** 1. The **Raqiya** remained, but the connection to the "Third Heaven" was veiled.

2. The **Adam** lost his "Legal Standing" as the King of the Realm.

3. The **Nachash** was sentenced to "eat dust"

(vibrating at the lowest possible physical frequency) and became the "Prince of the Power of the Air" (the space between the Earth and the *Raqiya*).

Next Steps in Our Mapping Project

We have now reached the point where "History" as the world knows it begins. The transition to the 7th Day was interrupted

by the **Breach**, leading to the rise of the "Watcher" era and the eventual tampering of the map by the Roman/Scribal editors.

From here there are a few options that we can look at. We are going to do them in the order they should go in without bouncing around from event to event. Here is what we will investigate next in the proper order.

- **The Age of the Watchers:** How the 200 "Shining Ones" descended onto **Mount Hermon** to further corrupt the map.

- **The Identity of the Woman:** Reclaiming the true name and role of **Khawah** (Eve) in the forensic timeline.

- **The Genealogy of the Seeds:** The forensic war between the "Seed of the Woman" and the "Seed of the Serpent"

(The Nephilim/Rephaim).

To maintain the integrity of the **Ancient Hebrew Forensic Method**, we must move in the chronological order of the "File." The transition from the 7th Day Breach leads directly into the corruption of the physical realm.

The order of execution for our canonization is as follows:

- **The Identity of Khawah**

(Eve): Restoring the "Mother of All Living" to her original role as the *Receiver* and the target of the first identity theft.

- **The Genealogy of the Seeds:** The forensic war between the bloodline of the Adam and the "Seed of the Serpent" (the introduction of the Nephilim).

- **The Age of the Watchers (Mount Hermon):** The

external hostiles who descended to permanently alter the geography and biology of the map.

1. The Identity of Khawah (Life-Giver)

We begin with the restoration of the woman. In standard redacted texts, "Eve" is often blamed for the fall.

Forensically, we see a strategic

strike by the *Nachash* against the "Weakest Link" not in character, but in **Access**.

- **Original Name: Khawah** (חַוָּה) – Meaning "Life-Giver" or "The Living One."

- **The Forensic Role:** She was the **Sanctuary of the Seed**. While the Adam was the High Priest of the *Geography*, Khawah was the High Priestess of the *Biology*.

- **The Strategic Target:** The Nachash approached Khawah because she was the "Receiver" of the revelation.

By corrupting her frequency, the Nachash knew he could contaminate the future generations of the Adam through the womb.

2. The Genealogy of

the Seeds (The Biological War)

Immediately following the Breach, **YHVH** issued a forensic decree that set the "War Map" for the next 7,000 years: *"I will put enmity between thee and the woman, and between thy seed and her seed"* (Genesis 3:15).

The "Seed of the

Woman" (The Netzar/ Branch)

- **The Lineage:** This is the high-frequency line that leads to the restoration of the Adam. It begins with **Seth** (appointed in place of Abel).

- **The Mission:** To preserve the original "Dust" blueprint (the DNA) of the Adam until the arrival of the Messiah (**Yeshua**).

The "Seed of the Serpent" (The Redacted Line)

- **The Lineage:** This begins with **Cain**. Forensically, the *Primary Authority* (*The Nag Hammadi* and *The Aramaic Targums*) suggests Cain's paternity was "of that wicked one.

- **The Forensic Marker:** Cain

was the first to build a "city" and create a counterfeit map. He moved further **East of Eden** into the land of *Nod* (Wandering), establishing the first post-Breach civilization based on "Toil" and "Metal-working."

3. The Age of the Watchers (The Mount Hermon Breach)

While the Seeds were warring

on the ground, a secondary breach occurred from the *Raqiya*. This is the **Age of the Watchers** (Years 1,000–2,000 post-Adam).

- **The Descent:** 200 "Sons of Elohim" (High-ranking angels) descended upon **Mount Hermon**.

- **The Location:** Mount Hermon is the highest point in the North of the Promised Land. Forensically, this was

a "Portal" or "Gate" in the firmament.

- **The Crime:** They took "wives" from the daughters of men. This was not just a sexual sin; it was **Genetic Engineering**. They were trying to "edit" the Adamic Dust by mixing it with celestial frequency.

The Result: The Nephilim (The Giants)

The offspring of this union were the **Nephilim** (The Fallen Ones).

- **The Biology:** They were the "Men of Renown" (Anshei HaShem). Because of their celestial DNA, they grew to massive sizes, mirroring the "Great Tanninim" of Day 5.

- **The Map Impact:** These giants began to consume all the resources of the Earth.

They built the "Megalithic Structures" that still baffle modern geologists—structures built to withstand the weight of their massive forms.

The Forensic Status of the Map

By the time we reach the era of **Enoch** (Hanokh), the map has fallen into total chaos:

- **The Center (Eden):** Guarded by Cherubim and the Flaming Sword; inaccessible.

- **The East:** Occupied by the line of Cain and the technological advancements of the Serpent's seed.

- **The North (Hermon):** The headquarters of the Watchers and the production of Nephilim.

- **The Soil:** Groaning under the

weight of the "Giants" and the corruption of the biological code.

Forensic Summary: The 7,000-year plan has now entered a "Hostile Occupation" phase. The Watchers and the Seed of the Serpent are attempting to "Delete" the Adamic line so that the Messianic Prototype can never be born.

Now that we have the order of events canonized—from

Khawah's identity to the Watcher Breach—From here we need to focus our forensic lens to see how YHVH responded to this corruption.

Next we will do the following nodes the same way...

- Investigate the Life and Maps of Hanokh (Enoch), the first to be shown the "Secrets of the Ends of the Earth".

- Examine the "Corruption of All Flesh" and the specific biological "Editors" the Watchers used.

- Move into The Great Flood and how the "Fountains of the Deep" were used to "Reset" the Map.
